Candidate by Nomination

Candidate Information:

I am a native of New Jersey, but my wife Lois (of 50 years) and I lived for over 43 years in the Washington, D.C. area prior to retiring to Hilton Head. We are blessed with three adult children and two grandchildren. We both love to golf and bike in and around Sea Pines.

I am a graduate of Rutgers College (1971), and the George Washington University National Law Center (1974). We first came to Sea Pines as tourists in 1986, and then vacationed annually for the next 16 years before we purchased our home in Club Course in 2002. I spent most of my career representing companies in the computer and telecommunications industries in negotiating business transactions and developing regulatory policies before the Federal Communications Commission and state regulatory commissions. In 2015, in recognition of my service to the wireless industry, I was inducted into the Wireless History Foundation's Wireless History Hall of Fame.

Why I Wish to Serve the Sea Pines Community:

During my three years as a CSA Board Director I have recognized that Sea Pines is evolving, and all of the changes are not entirely positive. I am VERY proud of the improvements we have achieved over the last 18 months, but there is more work to be done, not only in additional revenue generation to cover the increasing costs of operating in a "fully occupied" Sea Pines, but also in finding reasonable solutions to the valid concerns of our property owners that arise out of a fully populated community. Whether it is ways to manage noise pollution, traffic at our gates, crowding in our available parking lots or movement of residents, guests and tourists through our community to our most prized amenities, I would like to serve at least one more year in leadership hopefully to continue our work in resolving these matters.
